Systems & Services

Energy Management Systems & Services

Information & Communications Technology (ICT) Solutions

Enterprise Content Management (ECM) Solutions

Telecommunications Engineering

Environment & Energy Engineering

As 5G and Internet of Things (IoT) technologies expand into our daily lives, Kyocera products and services will continue to find new and innovative applications.

Our four principal markets are **Information & Communications** — connecting people and devices; **Automotive** — making vehicles smarter, safer and more eco-friendly; **Environment & Energy** — contributing to a more sustainable society; and **Medical & Healthcare** — where Kyocera products help to ensure longer, happier, and healthier lives.

By focusing our strengths on the above markets, the Kyocera Group will continue to develop highly valuable products and services, supporting a more comfortable and sustainable world.
