

# Kyocera contributes to society with **comprehensive capabilities** that enhance everyday life.

## Devices & Equipment

## Materials & Components

## Systems & Services

As the Internet of Things (IoT) expands into our daily lives, Kyocera products and services are gaining new applications.

Our four principal markets include **Information & Communications** — connecting people and devices; **Environment & Energy** — contributing to a sustainable environment; **Automotive** — making vehicles smarter, safer and more eco-friendly; and **Medical & Healthcare** — where Kyocera products help to ensure longer, happier, healthier lives.

By focusing our combined strengths on the above markets, the Kyocera Group will keep supplying products and services of value, supporting a more comfortable, more sustainable world.
