Notice regarding Revision of Amounts of Interim Dividend and Annual Total Dividend for the Fiscal  
Period Ending March 31, 2008 (54<sup>th</sup> Fiscal Period)

This is to advise you that Kyocera Corporation ("Kyocera") resolved at the meeting of its Board of Directors held on October 30, 2007 regarding its interim dividend and annual total dividend per share for the fiscal period ending March 31, 2008 as follows:

1. Reason for revision

Kyocera believes that the best way to increase corporate value and meet shareholders' expectations is to improve consolidated performance into the future. Kyocera therefore strongly takes into consideration the linkage between dividend amounts and consolidated performance and has implemented a dividend policy aiming for a consolidated payout ratio of approximately 20% to 25%. In addition, Kyocera determines dividend amounts based on an overall assessment, taking into account various factors that include the amount of capital expenditures necessary for medium to long-term growth.

With respect to the interim consolidated result as announced today, net sales and operating profit as well as pre-tax income increased as compared with the corresponding six-month period in the previous fiscal period. With regard to the six months ending March 31, 2008, Kyocera expects firm demand in the digital consumer equipment market, and Kyocera therefore projects solid demand for components used in these products to continue. Based on those expectations regarding the market environment, Kyocera expects to be able to achieve its financial forecasts for the full fiscal period, with net income per share for the full fiscal period ending March 31, 2008 reaching 543.40 yen.

Kyocera had anticipated paying an amount of annual total dividends for the fiscal period ending March 31, 2008 of 110 yen per share (a payout ratio of 20.2%), which is the same amount as paid in the previous fiscal period ended March 31, 2007. However, taking into consideration its expected performance for the full fiscal period, including its results for the semi-annual period as stated above, Kyocera has decided to pay an interim dividend relating to the fiscal period ending March 31, 2008 in the amount of 60 yen per share, an increase of 10 yen from the interim dividend in the amount of 50 yen per share paid in the corresponding previous fiscal period. As a result, the total

amount of dividends paid for the full fiscal period ending March 31, 2008 will be 120 yen per share, constituting a the payout ratio of 22.1%.

2. Substance of revision

Fiscal period ending March 2008 (from April 1, 2007 to March 31, 2008)

Record Dates	Dividend per Share		
	As of the end of the semi-annual period	As of the end of the full fiscal period	Annual total dividend
Forecast previously published (Announced on April 26, 2007)	Not Announced	Not Announced	¥110
Revision made this time	¥60	¥60	¥120
(c.f.) Dividends for previous fiscal period (Annual Period ended March 31, 2007)	¥50	¥60	¥110

As of April 26, 2007, the date of the announcement of results for the fiscal period ended March 31, 2008, Kyocera announced a forecast of annual total dividends of 110 yen per share, but it did not make any announcement with respect to the interim dividend and the yea-end dividend.

3. Commencement date of payment of interim dividend  
December 5, 2007

Note. Forward-Looking Statements

Certain of the statements made in this document are forward-looking statements (within the meaning of Section 21E of the U.S. Securities and Exchange Act of 1934), which are based on our current assumptions and beliefs in light of the information currently available to us. These forward-looking statements involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors include, but are not limited to: general economic conditions in our markets, which are primarily Japan, North America, Europe, and Asia, particularly including China; unexpected changes in economic, political and legal conditions in China; our ability to develop, launch and produce innovative products, including meeting quality and delivery standards, and our ability to otherwise meet the advancing technical requirements of our customers, particularly in the highly competitive markets for ceramics, semiconductor parts and electronic components; manufacturing delays or defects resulting from outsourcing or internal manufacturing processes which may adversely affect our production yields and operating results; factors that may affect our exports, including a strong yen, political and economic instability, difficulties in collection of accounts receivable, decrease in cost competitiveness of our products, increases in shipping and handling costs, difficulty in staffing and managing international operations, and inadequate protection of our intellectual property; changes in exchange rates, particularly between the yen and the U.S. dollar and euro, respectively, in which we make significant sales; inability to secure skilled employees, particularly engineering and technical personnel; insufficient protection of our trade secrets and patents; holding licenses to continue to manufacture and sell certain of its products, the expense of which may adversely affects its results of operations; future initiatives and in-process research and development may not produce the desired results; events that may impact negatively on our markets or supply chain, including terrorist acts and outbreaks of diseases; the occurrence of natural disasters, such as earthquakes, in locations where our manufacturing and other key business facilities are located; and fluctuations in the value of, and impairment losses on, securities and other assets held by us, and changes in accounting principles. Such risks, uncertainties and other factors may cause our actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. We undertake no obligation to publicly update any forward-looking statements included in this document.
