This is to advise you that Kyocera Corporation (“the Company”) resolved at a meeting of its Board of Directors held on January 30, 2012 that the financial forecast for the fiscal year ending March 31, 2012 (“fiscal 2012”), which was published on October 27, 2011, is revised as set forth below, taking into consideration of the business performance for the nine months ended December 31, 2011 and business environment for the fourth quarter (from January 1 to March 31, 2012) for fiscal 2012:

1. Revision of consolidated financial forecast for fiscal 2012 (April 1, 2011 to March 31, 2012)

2. Reason for Revision

Consolidated financial results for the third quarter (from October 1 to December 31, 2011) were sluggish, while the business environment fell short of assumptions made in October 2011. In the fourth quarter, there are concerns over persistent yen’s appreciation and the global economic impact of the downturn in European financial conditions, as well as the continued impact of floods in Thailand. As a result, the Company forecasts that expansion of production activities and recovery in component demand in principal markets such as digital consumer equipment will occur from the following fiscal year onward, and the difficult business environment is expected to continue in the fourth quarter.

Based on the economic circumstances and the business environment forecast, the Company revised the consolidated financial forecasts for fiscal 2012.
