Kyocera contributes to society with comprehensive capabilities that enhance everyday life.

As the Internet of Things (IoT) expands into our daily lives, Kyocera products and services are gaining new applications.

Our four principal markets include Information & Communications — connecting people and devices; Automotive — making vehicles smarter, safer and more eco-friendly; Environment & Energy — contributing to a more sustainable society; and Medical & Healthcare — where Kyocera products help to ensure longer, happier, healthier lives.

By focusing our combined strengths on the above markets, the Kyocera Group will keep supplying products and services of value, supporting a more comfortable, more sustainable world.
