The Kyocera Group has been recognized among the Derwent Top 100 Global Innovators again for 2018-19. Every year, Clarivate Analytics, a global information services provider specializing in intellectual property, selects 100 companies and research institutions based on intellectual property attributes in areas such as total number of patents, patent success rate, global reach, and influence of patents in citations. Kyocera has received this award for five consecutive years, reflecting our commitment to developing and protecting intellectual property.

"What we aim to do next is what other people tell us we could never do."
—Kazuo Inamori

The Kyocera Group operates several large research and development facilities which focus on materials, components, devices, equipment, systems and software. Kyocera also maintains a global research network specializing in production process technologies. With R&D hubs in Minatomirai (Yokohama, Japan) and Keihanna (Kyoto, Japan), we strive to synthesize the intellectual, technological and management resources of our diverse product lines. We also promote open innovation by collaborating with other institutions, aiming to expand our business while contributing to the development of a better world.

A World Leader in Intellectual Property

The Kyocera Group has been recognized among the Derwent Top 100 Global Innovators again for 2018-19. Every year, Clarivate Analytics, a global information services provider specializing in intellectual property and patents, selects 100 companies and research institutions based on intellectual property attributes in areas such as total number of patents, patent success rate, global reach, and influence of patents in citations.
