## Business Results, Financial Condition and Future Outlook

1. Business Results for the Nine Months Ended December 31, 2006

## (1) Economic and Business Environment

Despite a decreased rate of growth in individual consumption, the Japanese economy expanded moderately during the nine months ended December 31, 2006 (the nine months) due to increasing private capital expenditures and rising corporate earnings supported by strong exports. The Chinese economy remained buoyant as strong capital investment activities continued. The U.S. economy continued to expand steadily on the back of growth in capital expenditures and individual consumption although it has seemingly started to slow down in the second half of the fiscal year ending March 31, 2007 (from October 1, 2006 to March 31, 2007). Increasing exports drove continued growth in the European economy.

In the digital consumer equipment market, which is the principal market for Kyocera Corporation and its consolidated subsidiaries ("Kyocera Group" or "Kyocera"), a significant year-on-year increase in production of mobile phone handsets and digital TVs coupled with expanded production expansion of new game consoles led to strong demand for electronic device.

## (2) Consolidated Financial Results

With the objective of expanding business amid a favorable market environment manifesting strong demand for digital consumer equipment, Kyocera worked hard to launch new products and to improve productivity. Meanwhile, efforts were also made to further promote Kyocera's unique 'Amoeba Management' system throughout Kyocera Group. As a result, sales and profits increased year-on-year in both the Components and Equipment Businesses as compared with the nine months ended December 31, 2005 (the previous nine months). Consolidated net sales for the nine months amounted to $¥ 955,311$ million, up $11.1 \%$ compared with the previous nine months. Profit from operations increased by $51.6 \%$ to $¥ 101,372$ million and income from continuing operations before income taxes increased by $36.5 \%$ to $¥ 116,205$ million. Net income increased by $58.7 \%$ to $¥ 79,318$ million due to tax refunds accompanying the voidance of a portion of the tax assessment relating to transfer pricing adjustment.

Note 1. Kyocera sold its shares in Kyocera Leasing Co., Ltd., a subsidiary engaged in financing services, as a result, business results and profit on sales for Kyocera Leasing Co., Ltd. for the nine months have been recorded as income from discontinued operations in conformity with accounting principles generally accepted in the U.S. Figures for the previous nine months have been retrospectively reclassified. As a result, reclassified consolidated net sales for the previous nine months decreased by $¥ 4,442$ million compared with the result previously announced, reclassified profit from operations decreased by $¥ 2,339$ million and income from continuing operations before income taxes for the previous nine months decreased by $¥ 2,861$ million, respectively.

## (3) Implemented Management Measures and Significant Decision

1) Effective April 2006, Kyocera shifted to a new management system to facilitate its decision making process. The executive officer system undertaken by the officers with the titles of Chief Executive Officer, Chief Financial Officer and Chief Operating Officer was abandoned, and a new system was introduced in which the President and Representative Director undertakes all responsibilities for formulation and execution of Kyocera's management strategies.
2) In July 2006, Kyocera Kinseki Corporation, a subsidiary of Kyocera Corporation, acquired Hertz Technology Inc. and made it a wholly-owned subsidiary in order to further enhance its crystal devices business. Hertz Technology Inc. was renamed Kyocera Kinseki Hertz Corporation in October 2006. Through this acquisition, Kyocera gained new technology for tuning-fork crystal units, demand for which was expected to grow for mobile phone handsets and mobile music players, in particular, and thus expanded its business as a total crystal device manufacturer. A wide range of products will be developed in the crystal devices business going forward.
3) As part of its policy of business selection and concentration, Kyocera transferred its shares of Kyocera Leasing Co., Ltd., a subsidiary engaged in financing services, to Diamond Lease Company Limited in August 2006. In line with this, $¥ 5,175$ million was recorded as income from discontinued operations.
4) In the fiscal year ended March 31,2005 , Kyocera Corporation recorded $¥ 12,748$ million as additional taxes accompanying the receipt of a tax assessment notice based on transfer pricing adjustments from the Osaka Regional Taxation Bureau. On May 24, 2005, Kyocera filed a notice of complaint in respect of such assessment with the Bureau. On September 25, 2006, Kyocera Corporation received decision letter from the Bureau that voided a portion of the original assessment. In accordance with this decision, $¥ 4,305$ million of tax refunds, including local taxes, was recognized as tax refunds in the nine months. Kyocera Corporation remains in disagreement with the decision concerning the portion of the original assessment that was not voided, and therefore, on October 23, 2006, Kyocera submitted a written claim for examination with the Osaka Board of Tax Appeals. Furthermore, with the objective of avoiding duplicate taxation within Kyocera Group, a notice stating mutual agreement with the United States was submitted to the National Tax Agency on December 26, 2006.

Note 2. Commencing in the nine months, net sales and operating profit of the Precision Machine Division of Kyocera Corporation, formerly included within "Corporate," have been reclassified into "Others." Accordingly, previously reported net sales and operating profit of these reporting segments for the previous nine months have been retrospectively reclassified.

Note 3. By the reasons in Note 1 on page 4 and Note 2 above, net sales of "Others" in the previous nine months decreased by $¥ 4,297$ million and "Adjustments and eliminations" increased by $¥(145)$ million compared with those previously announced. Also, operating profit of "Others" in the previous nine months decreased by $¥ 2,559$ million, "Corporate" decreased by $¥ 301$ million and "Adjustments and eliminations" decreased by $¥ 1$ million compared with those previously announced.

## Components Business:

Sales in the Components Business increased by $13.8 \%$ compared with the previous nine months due to growing demand for components for digital consumer equipment such as mobile phone handsets. Operating profit for the Components Business increased by $47.0 \%$ on account of improved profitability achieved by raising productivity and reinforcing the 'Amoeba Management' system.

Consolidated results by reporting segment in the Components Business are as follows.

## 1) Fine Ceramic Parts Group

Sales and operating profit in this reporting segment increased significantly compared with the previous nine months due primarily to increased demand for ceramic parts for semiconductor fabrication equipment spurred by strong production activities in the semiconductor industry.
2) Semiconductor Parts Group

Sales and operating profit in this reporting segment increased significantly compared with the previous nine months due to rising demand for ceramic packages used in mobile phone handsets and digital cameras.
3) Applied Ceramic Products Group

Sales and operating profit in this reporting segment increased compared with the previous nine months due to the strong performance of the solar energy business amid an expanding global market let by rising environmental awareness, and also due to growth in implants business for biomedical industry.
4) Electronic Device Group

Both sales and operating profit increased substantially in this reporting segment compared with the previous nine months. While sales increased at AVX Corporation, a U.S. subsidiary, sales of capacitors, crystal-related components and connectors, etc., also expanded due to strong production activity for digital consumer equipment. In addition, efforts were also made to improve productivity.
Equipment Business:
Sales in the Equipment Business increased by $9.2 \%$ compared with the previous nine months due to increased sales in the Telecommunications Equipment Group and the Information Equipment Group. Through the positive effect of increased sales in the Information Equipment Group combined with improved profitability in the Telecommunications Equipment Group and the Optical Equipment Group, operating profit for the Equipment Business increased approximately by 2.3 times compared with the previous nine months.

Consolidated results by reporting segment in the Equipment Business are as follows.

1) Telecommunications Equipment Group

Sales in this reporting segment increased compared with the previous nine months due to increased sales of new models of mobile phone handsets in both Japanese and overseas markets. Operating profit improved compared with the previous nine months due to the positive effect of increased sales in the domestic mobile phone handset business and a reduction in loss at Kyocera Wireless Corp.
2) Information Equipment Group

Both sales and operating profit in this reporting segment increased compared with the previous nine months due to expanded sales of digital multifunctional products and printers overseas resulting from aggressive new product introductions, and also due to the positive effect of the yen's depreciation against the Euro and the U.S. dollar.
3) Optical Equipment Group

Sales in this reporting segment decreased compared with the previous nine months due mainly to the downsizing of the camera business, while operating loss was reduced through decreased expenses for structural reforms.
Others:
Sales and operating profit in "Others" increased compared with the previous nine months due to solid performance in the telecommunications engineering business at Kyocera Communication Systems Co., Ltd. and in the electronic device materials business at Kyocera Chemical Corporation.

Note 6 . By the reasons in Note 1 on page 4, consolidated sales in Japan in the previous nine months decreased by $¥ 4,442$ million, compared with those previously announced.

## 1) Japan

Sales increased compared with the previous nine months due to large growth for mobile phone handsets and products in the Fine Ceramic Parts Group.
2) United States of America

Sales increased significantly compared with the previous nine months due to growth in mobile phone handsets and products in the Semiconductor Parts Group.
3) Asia

Sales increased remarkably compared with the previous nine months due to growth for products in the Electronic Device Group and the Semiconductor Parts Group.
4) Europe

Sales increased largely compared with the previous nine months due to growth for solar energy products coupled with growth in the Electronic Device Group and the Information Equipment Group.

## 5) Others

Sales increased significantly due mainly to growth for mobile phone handsets.

## 2. Cash Flow

Cash and cash equivalents at December 31,2006 decreased by $¥ 38,435$ million to $¥ 262,374$ million compared with at March 31 , 2006.

| Cash and cash equivalents at beginning of period | 310,592 | 300,809 |
| Cash and cash equivalents at end of period | 256,765 | 262,374 |

(1) Cash flows from operating activities

Net cash provided by operating activities for the nine months decreased by $¥ 27,161$ million to $¥ 70,152$ million from $¥ 97,313$ million for the previous nine months. This was due mainly to decreases in cash inflow related to inventories and receivables, although net income increased by $¥ 29,325$ million.
(2) Cash flows from investing activities

Net cash used in investing activities in the nine months decreased by $¥ 34,633$ million to $¥ 100,448$ million from $¥ 135,081$ million for the previous nine months. This reflected that although deposit of time deposits significantly increased, there were increases in payments for property, plant, equipment and intangible assets and purchase of securities as well as increases in sales or redemption of securities and withdrawal of time deposits.
(3) Cash flows from financing activities

Net cash used in financing activities for the nine months decreased by $¥ 11,251$ million to $¥ 12,803$ million from $¥ 24,054$ million for the previous nine months. This was due to increases in short-term borrowings and sales of treasury stock, which exceeded a decrease in proceeds from issuance of long-term debt.

## 3. Capital Expenditures and Depreciation

| Depreciation | 44,731 | 5.2 | 51,129 | 5.4 | 14.3 |

Note 7 . By the reasons in Note 1 on page 4, capital expenditures in the previous nine months decreased by $¥ 1,411$ million and the depreciation decreased by $¥ 78$ million, compared with those previously announced.

In the nine months, Kyocera made capital expenditures particularly to increase production capacity in the Electronic Device Group. However, overall capital expenditures in the nine months decreased compared with the previous nine months, which included largescale capital expenditures such as the establishment of new production bases in the organic package business and the solar energy business. On the other hand, depreciation increased compared with the previous nine months because the considerable amount of capital expenditures were conducted in the fiscal year ended March 31, 2006.
4. Consolidated Forecasts for the Year Ending March 31, 2007 (Announced on January 30, 2007)

As Kyocera's business performance during the nine months was stronger than the forecast for the fiscal year ending March 31, 2007 (fiscal year 2007), which was previously made and announced on October 30, 2006 (the previous forecast) and Kyocera projects that favorable market condition will continue through the fourth quarter of the fiscal year ending March 31, 2007 (from January 1 to March 31, 2007), the following revisions have been made on the previous forecast of consolidated sales. As a result, Kyocera projects that consolidated operating profit in the Components Business will surpass the previous forcast. On the other hand, there has been no change in the previous forecasts of consolidated operating profits because the Telecommunication Equipment Business will recognize inventory write-downs in the fourth quarter of the fiscal year ending March 31, 2007 in order to strengthen its business foundation along with the aim of improving profitability for the forthcoming fiscal years.

Accordingly, previously reported net sales of these reporting segments for fiscal year 2006 have been retrospectively reclassified.

Note 10. Due to the reasons set forth in Note 1 on page 4 and Note 9 above, net sales of "Others" in fiscal year 2006 decreased by $¥ 7,565$ million and "Adjustments and eliminations" increased by $¥(380)$ million, compared with those previously announced.

Note 11. Commencing in fiscal year 2007, operating profits of the Precision Machine Division of Kyocera Corporation, previously included within "Corporate," has been reclassified into "Others." Accordingly, previously reported operating profits of these reporting segments for fiscal year 2006 has been retrospectively reclassified.

Note 12. Due to the reasons set forth in Note 1 on page 4 and Note 11 above, operating profit of "Others" in fiscal year 2006 decreased by $¥ 3,577$ million compared with that previously announced.

Kyocera forecasts continuing strong demand for digital consumer equipment, especially new game consoles and digital TVs, in the fourth quarter of the fiscal year ending March 31, 2007, and as a result, component demand is expected to remain high. As a means to further expanding business in such market environment, Kyocera will continue launching new products, expanding sales of high-value-added products and cultivating new markets for the components business. For the equipment business, Kyocera will strive to expand sales mainly by introducing new models of mobile phone handsets and digital multifunctional products that meet market needs.

Kyocera aims to continuously reinforce the 'Amoeba Management' system, and create new businesses and cultivate new markets through the pursuit of group synergies. Kyocera anticipates that these efforts will lead to increased sales and the achievement of high profitability.

## Notes:

1. Kyocera applies the Statement of Financial Accounting Standards Board (SFAS) No.130, "Financial Reporting of Comprehensive Income." Based on this standard, comprehensive income for the nine months ended December 31, 2005 and 2006 were an increase of $¥ 127,102$ million and an increase of $¥ 147,201$ million, respectively.
2. Earnings per share amounts were computed based on SFAS No.128, "Earnings per Share." Under SFAS No.128, basic earnings per share was computed based on the average number of shares of common stock outstanding during each period and diluted earnings per share assumed the dilution that could occur if securities or other contracts to issue common stock were converted into common stock, exercised or resulted in the issuance of common stock.
3. Against the Correction Disposition with regard to transfer pricing taxation, which was rendered by the Osaka Regional Taxation Bureau in March 2005, Kyocera filed the Request for Reinvestigation in May 2005. Kyocera then received the Decision on the Request for Reinvestigation in September 2006. Based on the Decision, $¥(4,305)$ million is included in income taxes shown above, as refunds for the previous years.
4. In accordance with SFAS No.144, "Accounting for the Impairment of Disposal of Long-Lived Assets," the consolidated financial statement for the nine months ended December 31, 2005 has been retrospectively reclassified as for the discontinued operations.

## Notes:

1. Kyocera applies SFAS No.130, "Financial Reporting of Comprehensive Income." Based on this standard, comprehensive income for the three months ended December 31, 2005 and 2006 were an increase of $¥ 50,837$ million and an increase of $¥ 55,444$ million, respectively.
2. Earnings per share amounts were computed based on SFAS No.128, "Earnings per Share." Under SFAS No.128, basic earnings per share was computed based on the average number of shares of common stock outstanding during each period and diluted earnings per share assumed the dilution that could occur if securities or other contracts to issue common stock were converted into common stock, exercised or resulted in the issuance of common stock.
