Summary of H1 FY3/2015 Results - Comparison with H1 FY3/2014 -

Record high H1 sales with profit roughly unchanged

1. Expanded Components Business

- Telecommunications market: Ceramic packages and capacitors for telecommunications infrastructure and smartphones
- > Automotive market: Camera modules, ceramic packages for LEDs and cutting tools
- Expanded organic substrate business through sales contribution from Kyocera Circuit Solutions, Inc.

2. Increased sales and profit in Information Equipment Group

- Sales up due to sales gains in MFPs
- Improved product mix on the back of higher sales of consumables, etc. and reduced costs resulted in profit growth

3. Increased profit in Electronic Device Group

Cost reductions and the effect of structural reforms implemented in the previous fiscal year

4. Decreased sales and profit in Applied Ceramic Products Group

Decreased the number of large projects decreased coupled with the impact of price declines in solar energy business

Summary of Q2 FY3/2015 Results - Comparison with Q1 FY3/2015 -

Sales and profit increased in all reporting segments, with operating profit surging approx. 60%

1. Increased sales in key markets

- For smartphones: Ceramic packages for CMOS image sensors, crystal and SAW devices, connectors and capacitors
- > For industrial markets such as automotive: Cutting tools, camera modules,

and semiconductor processing equipment parts

2. Increased sales and profit in Telecommunications Equipment Group

Sales and profit grew significantly owing to the effect of new products

3. Increased sales in Information Equipment Group

Sales of printers and MFPs increased, particularly in Europe

4. Growing demand for solar energy business

Sales increased in line with sales gains in the commercial sector in Japan

Notes: 1. Forecast of EPS (Diluted-yen) is computed based on the diluted average number of shares outstanding during the six months ended September 30, 2014.
 2. EPS (Diluted-yen) is computed under the assumption that the stock split at the ratio of two-for-one of all common stock, which took effect on October 1, 2013, had been undertaken at the beginning of the year ended March 31, 2014.

Forward-Looking Statements

Certain of the statements made in this document are forward-looking statements (within the meaning of Section 21E of the U.S. Securities and Exchange Act of 1934), which are based on our current assumptions and beliefs in light of the information currently available to us. These forward-looking statements involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors include, but are not limited to the following:

- (1) Decline in demand for our products due to sluggish economic conditions in Japan and worldwide;
- (2) Economic, political and legal conditions and unexpected changes therein in countries or areas where we operate;
- (3) Factors that may affect our exports, including the yen's appreciation, political and economic instability, customs, and inadequate protection of our intellectual property;
- (4) Fluctuation in exchange rates that may affect the value of our foreign assets or our business activities;
- (5) Intensified competition in product pricing, technological innovation, R&D activities, product quality and speed of delivery;
- (6) Manufacturing delays or defects resulting from outsourcing or internal manufacturing processes;
- (7) Shortages and rising costs of electricity affecting our production and sales activities;
- (8) The possibility that expansion of production capacity and in-process R&D activities may not produce the desired results;
- (9) The possibility that companies or assets acquired by us may not produce the returns or benefits, or bring in business opportunities, which we expect;
- (10) Inability to secure skilled employees, particularly engineering and technical personnel;
- (11) The possibility of divulgence of our trade secrets and infringement of our intellectual property rights;
- (12) The possibility that we may receive notice of claims of infringement of other parties' intellectual property rights and claims for royalty payments;
- (13) Increases in our environmental liability and in costs and expenses required to observe obligations imposed by environmental laws and regulations in Japan and other countries;
- (14) Unintentional conflict with laws and regulations, or the possibility that amendments to laws and regulations or newly enacted laws and regulations may limit our business operations;
- (15) Events that may negatively impact our markets or supply chain, including plague, terrorist acts, international disputes and conflicts, etc. and similar events;
- (16) Earthquakes and other related natural disasters affecting our operational facilities and our markets or supply chain, as well as social and economic infrastructure;
- (17) Exposure to difficulties in collection of trade receivables due to customers' worsening financial condition;
- (18) The possibility of recognition of impairment losses on investment securities held by us due to declines in their value;
- (19) The possibility that we may record impairment losses on long-lived assets, goodwill and intangible assets;
- (20) The possibility that deferred tax assets may not be realized or additional liabilities for unrecognized tax benefits may be incurred; and
- (21) Changes in accounting principles

Such risks, uncertainties and other factors may cause our actual results, performance, achievements or financial condition to be materially different from any future results, performance, achievements or financial condition expressed or implied by these forward-looking statements. We undertake no obligation to publicly update any forward-looking statements included in this document.
