Kyocera Corporation (the “Company”) hereby announces that at the Board of Directors meeting held today, the Company has adopted resolutions in respect of revision of its consolidated financial forecasts for fiscal 2027, which were previously announced on April 30, 2026, taking into consideration the performance for the three months ended June 30, 2026 (“the first quarter”) and the business environment forecast for the three months ending September 30, 2026 (“the second quarter”) onward.

^{*2}: Based on the average number of shares outstanding during the first quarter.

2. Reason for the Revision to Consolidated Financial Forecasts for Fiscal 2027

Financial results for the first quarter exceeded our expectations due to earlier-than-anticipated demand growth in broad areas such as AI and semiconductor-related markets and due also to the depreciation of the yen.

Although uncertainty resulting from materials price increases and geopolitical risks, etc. is expected to remain during the second quarter and thereafter, taking into account the progress through end of the first quarter, the Company has revised its consolidated financial forecasts for fiscal 2027 as set forth above.
